Fur-Ever Home Newsletter

Annie Needs Your Help

Fur-Ever Home is dedicated to giving senior dogs the same level of care as our younger (sadly more adoptable) rescues. Annie joined the FEH family after both of her owners passed away from terminal cancer. She had no sight in either of her eyes.

FEH provided a surgery to improve her eyesight. "Although Annie has a lot of years ahead of her at 10 years old, she is considered a senior," said Cynde van Vleet, president of FEH. "It is very difficult to rehome a senior especially a blind one, so when we realized that we may be able to give her some sight and a chance at a Fur-Ever Home we voted to go for it."

The surgery was successful in improving eyesight in one of her eyes. Due to an infection after the surgery, she lost the other. We are devastated at FEH, but still hopeful that the eye that regained some site will help give her a better quality of life.

Annie has been through so much. Our fosters and board members are dedicated to taking care of this little one, but FEH desperately needs help to pay for mounting vet bills. Please consider donating to help little Miss Annie!

FEH Family Reunion

A group of four siblings from the same Fur-Ever Home Litter reunited for an afternoon of fun on March 20, 2019. We are so proud and excited to see our puppies return together as

beautiful, healthy adults. For all of you with a Fur-Ever Home dog, you are forever part of our family!

CARING FOR AN OLDER PET:

1. Know your Dog's Health Baseline

By taking your dog to annual exams for regular health maintenance you will know better when something is wrong.

2. Nutrition and Mobility

Pain in the joints and arthritis plague older dogs. Maintaining optimal weight is essential to good health for an older dog. Make sure that your older pet is still getting age appropriate exercise.

3. Hearing and Vision Loss

Pay attention to your dog as they age and notice the sometimes subtle symptoms of hearing and vision loss. If you suspect that your dog is experiencing either, see your vet and check if it is treatable. Dogs suffering from hearing or vision loss will be more easily startled. Pay extra attention when the dog is interacting with children.

4. Behavioral and Cognitive Changes

Be wary of behavioral or personality changes in your older pets. There are many conditions that effect the cognitive abilities of senior dogs. If you notice drastic changes in behavior, see your vet.

Dogs Still Looking for a Forever Home

Brandy and Shadow

Brandy and Shadow are a bonded pair and need to go together. These two sisters are around nine months to a year old and ready to cuddle up on the couch with you. In their previous living situation, they lived outdoors and were ignored by their humans. Shadow relies heavily on Brandy for her confidence and will need time and encouragement from her new family. If you are interested in adding two love bugs to your home, go to our page (fur-ever-home.org) and submit an application.

JOIN US!

Fur-Ever Home is hosting its third annual Old Town Doggy Showdown fundraiser and adoption event on June 22 from 10am to 1pm at Historic Town Park in San Juan Capistrano.

No fee for entry, and the event features a live DJ, adoptable dogs and puppies, prize drawing, vendors, food trucks, and doggy games. Please join us!

SPONSOR'S ARE STILL NEEDED!

We are looking for businesses to help sponsor the event or provide items for our silent auction. Rescues are welcome to attend the event with their adoptable pets free of charge. Vendors may purchase booth space. For more information visit our website www.fur-ever-home.org.
